

Please find below the list of european non governmental organizations who support La Quadrature du Net submission on Net Neutrality :

	<a href="#"><u>ANSOL</u></a> - Portugal A portuguese Free Software association
	<a href="#"><u>April</u></a> - France April is the main French advocacy association devoted to promote and protect Free/Libre Software
	<a href="#"><u>EXGAE</u></a> - Spain EXGAE is the first advice service specialised in liberating all individuals and author/artists from the abuses of the cultural industry trade groups. EXGAE fights, alongside the great majority of society, for the right to use alternative forms of circulation of culture. EXGAE is not an assistencial project. EXGAE invent and practice.
	<a href="#"><u>Framasoft</u></a> - France Endorsed by a network of cooperative accommodating websites, our goal is the dissemination and the promotion of the Free culture in general and the Free softwares in particular. Framasoft is meant to be an open door for the larger audience toward an assisted discovery of the "Free software world" : Free software and it's mind frame, the Free culture permitted by digital freedoms.
	<a href="#"><u>Freiheit statt Angst e.V.</u></a> - Germany We are fighting against surveillance laws in Germany and Europe, especially - data retention and video surveillance - the job card (ELENA) and the health card - biometric data in passports - the blocking of web pages and for net neutrality
	<a href="#"><u>Hacktivistas</u></a> - Spain Hacktivist collective.
	<a href="#"><u>Interlink IGV</u></a> - Netherlands We are a student association part of the IT faculty on the Fontys University of Applied Sciences in Eindhoven. We started out as a union promoting internet usage and providing internet connectivity on campus in 1993. Until 2001 students only had internet access through us, until 2005 students only had wireless internet through us. Currently our main activities are that of promoting the use and development of Open Source software with emphasis on the IT studies involving programming. Along with that we provide an environment where students can gain practical experience with programming and maintenance of Unix-based (*BSD, Linux, Solaris) systems. Practical experience meaning that real-world projects are provided for, which motivates students more than the usual throw-away programming tasks.
	<a href="#"><u>La Quadrature du Net</u></a> - France La Quadrature du Net is a citizen group informing about legislative projects menacing civil liberties as well as economic and social development in the digital age.
	<a href="#"><u>NURPA</u></a> - Belgique Net Users' Rights Protecion Association (trad. Association de Protection des Droits des Internautes). La NURPA défend les droits et libertés des citoyens sur Internet.
	<a href="#"><u>PANGAEA</u></a> - Spain Pangea is a non-profit organisation founded on 1993 to promote the strategic use of comm networks and ICT tools for development and social justice
	<a href="#"><u>Red SOSTenible</u></a> - Spain Platform of groups and persons against the approval of the Spanish Law of Sustainable Economy that attacks the "linking" in Internet.
