## COMPROMISE AMENDMENTS

### **A new Digital Agenda for Europe: 2015.eu (2009/2225(INI))**

#### **Compromise amendment 1** by

replacing Amendments 51 to 55, 57, 273, IMCO1, CULT 1 and CULT 2

#### **Motion for a resolution**

##### **Paragraph 1**

###### *Motion for a resolution*

1. Calls on the Commission to come forward with a proposal for **a comprehensive strategy** and action plan enabling Europe to progress towards an open and prosperous digital society; proposes that this new **framework** be called '2015.eu agenda' and be based on the model of the virtuous 2015.eu spiral;

###### *Amendment*

1. Calls on the Commission to come forward with a proposal for **an ambitious digital agenda** and action plan enabling Europe to progress towards an open and prosperous digital society **offering all citizens economic, social and cultural opportunities**; proposes that this new **digital agenda** be called '2015.eu agenda' and be based on the model of the virtuous 2015.eu spiral;

## Compromise amendment 2 by

replacing Amendments 57 to 74, 125 and 159

### Motion for a resolution Paragraph 2

#### *Motion for a resolution*

2. Stresses the importance of continuing efforts towards ubiquitous and high-speed access for all citizens and consumers, **through the promotion of access to fixed and mobile Internet and the deployment of next-generation infrastructure**; emphasises that this requires policies that promote access on fair terms and at competitive prices for all communities, irrespective of location, thereby ensuring that no European citizen faces exclusion;

#### *Amendment*

2. Stresses the importance of continuing efforts towards ubiquitous and high-speed access **to fixed and mobile broadband** for all citizens and consumers, **including by safeguarding competition to the benefit of consumers**; emphasises that this requires **targeted** policies that promote **competition and efficient investment and innovation in new and enhanced access infrastructures and consumer choice in delivering** access, on fair terms and at competitive prices for all **citizens**, irrespective of location, thereby ensuring that no European citizen faces exclusion;

**Compromise amendment 3** by  
replacing Amendments 75 to 81 and 88

**Motion for a resolution**  
**Paragraph 3**

*Motion for a resolution*

3. Believes that every EU household should have access to broadband Internet at a competitive price by 2013; **urges the Commission therefore to carry out a review of the universal service obligations** and calls on Member States to impart new impetus to the European high-speed broadband strategy, notably by updating national targets for broadband and high-speed coverage;

*Amendment*

3. Believes that every EU household should have access to broadband Internet at a competitive price by 2013; **calls upon the Commission and the Member States to promote all available policy instruments to achieve broadband for all European citizens, including the use of European structural funds and of the digital dividend for extending mobile broadband coverage and quality;** calls, **furthermore,** on Member States to impart new impetus to the European high-speed broadband strategy, notably by updating national targets for broadband and high-speed coverage;

**Compromise amendment 4** by

replacing Amendments 82 to 84, 87, 112 and CULT 11

**Motion for a resolution**  
**Paragraph 3 a (new)**

*Motion for a resolution*

*Amendment*

***3a. Recalls that particular attention should be paid to rural areas, areas affected by industrial transition, and regions which suffer from severe and permanent natural or demographic handicaps, in particular the outermost regions; considers that an appropriate solution to ensure the effective supply of and access to broadband Internet by the citizens of these regions within an acceptable timeframe and at a reasonable cost is through wireless technologies including satellite which enable an immediate ubiquitous connectivity to the internet backbone;***

**Compromise amendment 5** by

replacing Amendments 85, 86 and IMCO 13

**Motion for a resolution**  
**Paragraph 3 b (new)**

*Motion for a resolution*

*Amendment*

***3b. Recalls that the universal service obligations should serve as an effective safety net to consumers while not distorting the market and not imposing an additional burden on consumers and operators; urges the Commission therefore to produce its long awaited review of universal service without delay;***

## Compromise amendments 6 by

replacing Amendments 89 to 104 and CULT 7  
Motion for a resolution

### Paragraph 4, 4a and 4b

#### *Motion for a resolution*

4. Underlines the importance of maintaining Europe as the mobile continent in the world and ensuring that 75% of mobile subscribers **are 3G (or beyond) users** by 2015; **recalls the necessity to accelerate the harmonised deployment of the digital dividend without compromising existing broadcast services;**

#### *Amendment*

4. Underlines the importance of maintaining Europe as the mobile continent in the world and ensuring that 75% of mobile subscribers **are mobile broadband user with access to high-speed wireless services** by 2015;

**4a. Recalls the necessity to accelerate the harmonised deployment of the digital dividend spectrum in a non-discriminatory manner, without compromising existing and enhanced broadcast services;**

**4b. Calls on the Commission to address through the Radio Spectrum Committee practical and technical requirements to ensure the timely availability of spectrum, with sufficient flexibility, to enable the deployment of new technologies and services such as mobile broadband; calls on the Commission to report on competition and spectrum market developments;**

## Compromise amendment 7 by

replacing Amendments 111, 113 to 124 and 126

### Motion for a resolution Paragraph 5

#### *Motion for a resolution*

5. Considers that, as Internet access rates are increasing, 50% of EU households should be connected to high-speed networks by 2015;

#### *Amendment*

5. Considers that, as Internet access rates are increasing, **Member States should strive to achieve that** 50% of EU households should be connected to **very** high-speed networks by 2015 **and 100% by 2020 enabling a reliable and improved end-user experience in line with consumer expectations and needs; recalls that for achieving these objectives an appropriate policy framework is vital to enable private investment, while safeguarding competition and boosting consumer choice;**

## Compromise amendment 8 by

replacing Amendments 128 to 138 and IMCO 16

### Motion for a resolution Paragraph 6

#### *Motion for a resolution*

6. Calls on Member States to transpose **the telecoms package** before the established deadline, **in particular the new provisions on Next Generation Access (NGA) networks and spectrum**, which **provide** for a **stable** regulatory environment **to stimulate** investment **while safeguarding** competition;

#### *Amendment*

6. **Urges Member States** to transpose **the new electronic communications regulatory framework** before the established **deadline and to fully enforce it and to empower national regulators accordingly; emphasises that the new framework provides** for a **predictable and consistent** regulatory environment **which stimulates investment and promotes competitive markets for ICT networks, products and services contributing to an enhanced single market for information society services;**

**Compromise amendment 9** by  
replacing Amendments 147 to 158

**Motion for a resolution**  
**Paragraph 7**

*Motion for a resolution*

*Amendment*

**7. Recalls that one aim of the new electronic communications regulatory framework is progressively to reduce ex ante sector-specific rules as competition in the markets develops and, ultimately, for electronic communications to be governed by competition law only;**

**deleted**

**Compromise amendment 10** by

replacing Amendment 160, 203, 214, 252 and CULT 9

**Motion for a resolution**  
**Paragraph 7 a (new)**

*Motion for a resolution*

*Amendment*

**7a. Recalls that interoperability and accessibility are interlinked and are the bricks on which an efficient information society will be built upon, in order for products, infrastructures and services to interoperate with each other so that Europeans can access services and data independently from which software they use;**

## Compromise amendment 11 by

replacing Amendments 105, 161 to 164, 167, IMCO 4 and CULT 21

### Motion for a resolution Paragraph 8

#### *Motion for a resolution*

8. Insists that digital competences are crucial for an inclusive digital society and that all EU citizens should be empowered **with** the appropriate digital skills; emphasises the essential commitment to reduce digital literacy and competence gaps by half by 2015;

#### *Amendment*

8. Insists that digital competences are crucial for an inclusive digital society and that all EU citizens should be empowered **and have the incentives to develop** the appropriate digital skills; **stresses that digital competences could help disadvantaged people (i.e. elderly, low-income) to be included into society; calls on the Commission and on the Member States to tackle the disparities between the different groups of society in terms of digital literacy and internet use, the so-called emerging second digital divide;** emphasises the essential commitment to reduce digital literacy and competence gaps by half by 2015;

**Compromise amendment 12** by  
replacing Amendments 165, 169 to 172

**Motion for a resolution**  
**Paragraph 9**

*Motion for a resolution*

9. Stresses that all primary and secondary schools must have high-speed Internet connections by 2015;

*Amendment*

9. Stresses that all primary and secondary schools must have **reliable, quality Internet connections by 2013 and very** high-speed Internet connections by 2015 **with the support of the regional and cohesion policy where appropriate; emphasises that ICT training and e-learning should become an integral part of lifelong learning activities enabling better and accessible education and training programmes;**

### Compromise amendment 13 by

replacing Amendments 166, 174 to 178, 180, IMCO 5, IMCO 9, CULT 20, CULT 22, CULT 24, CULT 25, CULT 27

#### Motion for a resolution Paragraphs 10 and 10a

##### *Motion for a resolution*

10. Proposes the launch of a 'Digital literacy action plan' at EU and Member State levels, notably comprising: specific digital literacy training opportunities for groups at risk of exclusion; incentives for private-sector initiatives to provide digital skills training to all employees; a European-wide 'Be smart online!' initiative to make all students familiar with the safe use of ICT and online services; and a common EU-level ICT certification scheme;

##### *Amendment*

10. Proposes the launch of a 'Digital literacy **and inclusion** action plan' at EU and Member State levels, notably comprising: specific digital literacy training opportunities for **unemployed people and** groups at risk of exclusion; incentives for private-sector initiatives to provide digital skills training to all employees; a European-wide 'Be smart online!' initiative to make all students, **including those engaged in life-long learning and professional training**, familiar with the safe use of ICT and online services; and a common EU-level ICT certification scheme;

**10 a. Notes the importance of equipping EU citizens with digital skills in order to help them fully exploit the benefits of participating in the digital society; reaffirms the need to ensure that the knowledge, skills, competence and creativity of the European workforce meet the highest global standards and are constantly updated; believes that digital literacy and competences should be central aspects of EU policies as they are the main drivers of Europe's innovation society;**

## Compromise amendment 14 by

replacing Amendments 56, 181 to 186, 198 and IMCO 10 (1-3 sentence)

### Motion for a resolution Paragraph 11

#### *Motion for a resolution*

11. Emphasises that all EU citizens should be made aware of their basic digital rights through a European Charter of citizens' and consumers' rights in the digital environment, **consolidating** and **updating** the Community acquis as appropriate;

#### *Amendment*

11. Emphasises that all EU citizens should be made aware of their basic digital rights **and obligations** through a European Charter of citizens' and consumers' rights in the digital environment; **believes that this Charter should consolidate** the Community acquis **including, in particular, users' rights relating to the protection of privacy, vulnerable users and digital content as well as guaranteeing adequate interoperability performance; reaffirms that the rights in the digital environment should be considered within the overall framework of fundamental rights;**

## Compromise amendment 15 by

replacing Amendments 188 to 190 and CULT 10

### Motion for a resolution Paragraph 12

#### *Motion for a resolution*

12. Believes firmly that the protection of privacy constitutes a core value and that all users should have control of their personal data, including the 'right to be forgotten'; calls **therefore** for the adaptation of the Data Protection Directive to the current digital environment

#### *Amendment*

12. Believes firmly that the protection of privacy constitutes a core value and that all users should have control of their personal data, including the 'right to be forgotten'; **urges the Commission to take account not only of data protection and privacy questions as such, but especially of the specific needs of minors and young adults with respect to these questions;** calls **on the Commission to submit a proposal** for the adaptation of the Data Protection Directive to the current digital environment

Calls for stronger protection for online privacy. Possibly ambiguous reference to the right to be forgotten.

**Compromise amendment 16** by

replacing Amendments 191 to 200, IMCO 7 and IMCO 11

**Motion for a resolution  
Paragraph 13**

*Motion for a resolution*

13. Calls on the **Commission to take further action** to fight cybercrime **and** spam and urges all Member States to ratify **the Cybercrime Convention**;

*Amendment*

13. Calls on the **Commission and the Member States to take further action to improve digital security, to** fight cybercrime and spam, **to enhance users' confidence and to secure the European Union cyberspace against all kinds of crimes and offences; calls on the Commission and the Member States to effectively engage and enhance international cooperation in this area; reminds Member States that almost half of them have still not ratified the Council of Europe Convention on Cybercrime** and urges all Member States to ratify **and implement this Convention**;

**Compromise amendment 17** by

replacing Amendments 44, 187, 204 to 213 and CULT 8

**Motion for a resolution**  
**Paragraph 14**

*Motion for a resolution*

14. Insists on safeguarding an open Internet, where citizens have the right to access and distribute information or run applications and services of their choice; calls on the Commission, the Body of European Regulators for Electronic Communications (BEREC) and the National Regulatory Authorities (NRAs) to monitor closely **and enforce the harmonised implementation of the 'net neutrality' provisions;**

*Amendment*

14. Insists on safeguarding an open Internet, where citizens have the right **and business users are able** to access and distribute information or run applications and services of their choice **as provided for by the new regulatory framework;** calls on the Commission, the Body of European Regulators for Electronic Communications (BEREC) and the National Regulatory Authorities (NRAs) **to promote the 'net neutrality' provisions, to monitor its implementation closely and to report to the European Parliament before the end of 2010;**

**Compromise amendment 18** by

replacing Amendments 215 to 219 and IMCO 6

**Motion for a resolution  
Paragraph 15**

*Motion for a resolution*

15. Calls on the Commission to propose before 2013 a long-term solution to the problem of roaming;

*Amendment*

15. ***Welcomes the rapid implementation of the legislation on roaming; underlines the further need for constant monitoring of EU mobile roaming prices, including those of data roaming;*** calls on the Commission to propose before 2013 a long-term solution to the problem of roaming ***in order to ensure a well-functioning, consumer-oriented and competitive roaming market; calls on BEREC to analyse before the Commission's review of the roaming regulation methods other than price regulation which could be used to create a competitive internal market for roaming;***

## Compromise amendment 19 by

replacing Amendments 222 to 232, 234, 243, 244, IMCO 8 and IMCO 12

### Motion for a resolution

#### Paragraph 16, 16 a (new) and 16 b (new)

##### *Motion for a resolution*

16. Calls on the EU institutions to remove the key regulatory obstacles to cross-border online transactions by 2015; calls on the Commission to **review** the Community acquis affecting the **online** single market and to propose targeted legislative action on key impediments;

##### *Amendment*

16. **Stresses that digital services can contribute to Europe making full use of the internal market; calls for an effective policy for a digital single market that make online services in Europe more competitive, accessible, cross-border and transparent providing the highest possible level of consumer protection and putting an end to territorial discrimination;** calls on the EU institutions to remove the key regulatory **and administrative** obstacles to cross-border online transactions by **2013**; calls on the Commission to **further its ongoing assessment of** the Community acquis affecting the **digital** single market and to propose targeted legislative action on key impediments;

**16a. Calls on the Commission to consider measures to further increase the transparency of terms and conditions of cross-border online trade and the effectiveness of cross-border enforcement and redress; underlines that a successful development of online trade requires efficient distribution of products and goods and therefore highlights the need for a rapid implementation of the 3rd Postal Directive**

**(2008/06/EC);**

**16b. Believes that Member States should ensure the necessary digital environment for enterprises, especially SMEs; calls on Member States to establish 'one-stop-shops' for VAT in order to facilitate cross-border e-commerce for SMEs and entrepreneurs and calls on the Commission to support the wide use of e-invoices;**

**Compromise amendment 20** by  
replacing Amendments 235 to 242

**Motion for a resolution**  
**Paragraph 17**

*Motion for a resolution*

17. Takes the view that, almost a decade after their adoption, the Directives **concerning** the legal framework for the information society (**i.e. the Data Protection Directive, Electronic Signatures Directive and Electronic Commerce Directive**) appear out of date due to the increased complexity of the online environment **and** the introduction of new technologies; believes that, while the legal issues arising from some Directives can be resolved through an incremental update, other Directives need a more fundamental revision;

*Amendment*

17. Takes the view that, almost a decade after their adoption, the Directives **constituting** the legal framework for the information society appear out of date due to the increased complexity of the online environment, the introduction of new technologies **and the fact that EU citizens data are increasingly processed outside of the EU**; believes that, while the legal issues arising from some Directives can be resolved through an incremental update, other Directives need a more fundamental revision **and that the adoption of an international framework for data protection is needed**;

**Compromise amendment 21** by  
replacing Amendments 245 to 251

**Motion for a resolution**  
**Paragraph 18**

*Motion for a resolution*

18. Emphasises the potential value to citizens and businesses of the digital switchover of public services **and** calls on Member States to develop national plans for the digital switchover of public services, which should include targets and measures for getting all public services online and accessible to persons with disabilities by 2015;

*Amendment*

18. Emphasises the potential value **for** citizens and businesses of the digital switchover of public services **(e-government) in order to enable a more efficient and personalised provision of public services; calls on Member States to seize ICT tools to improve transparency and accountability of government action and to contribute to a more participative democracy;** calls on Member States to develop national plans for the digital switchover of public services, which should include targets and measures for getting all public services online and accessible to persons with disabilities by 2015;

## Compromise amendment 22 by

replacing Amendments 221, 230, 255 to 265, 267, 270, CULT 17 and CULT 18

### Motion for a resolution

#### Paragraph 19, 19 a (new) and 19 b (new)

##### *Motion for a resolution*

19. Emphasises the need to develop the free circulation of content and knowledge and to achieve, by 2015, a **simple**, consumer-friendly legal framework for accessing digital content in Europe, which would give certainty to consumers and **ensure robust solutions that are balanced and attractive for users and rights-holders**; urges the EU to accelerate the debate on copyright and to **establish** an EU copyright title under Article 118 of the Treaty on the Functioning of the EU **by 2013**;

##### *Amendment*

19. Emphasises the need to develop **a "Fifth Freedom" that enables** the free circulation of content and knowledge and to achieve, by 2015, a **convergent**, consumer-friendly legal framework for accessing digital content in Europe, which would **improve** certainty to consumers and **achieve a fair balance between the right-holders' rights and the general public's access to content and knowledge**; urges the EU **in view of the pace of technological development** to accelerate the debate on copyright and to **analyse the impact of** an EU copyright title under Article 118 of the Treaty on the Functioning of the EU **to provide uniform protection of intellectual property rights throughout the Union, both online and offline**;

**19a. Underlines that Internet, which offers many new opportunities for the circulation of and access to the products of the creative work, also poses new challenges to secure the European Union cyberspace against new kinds of crimes and offences; favours more effective measures to fight on-line piracy and ensure copyright protection;**

**19b. Believes that, in the light of new technologies, new**

***digital delivery means and changing consumer behaviour, the EU needs to promote supply-side policies and to consider the further development of copyright licensing and clearance rules; calls for an improved, more efficient, and more consistent transparent rights management and clearance system for both musical and audiovisual works and for more transparency and competition between collecting rights management organisations;***

**Compromise amendment 23** by  
replacing Amendments 289 to 296

**Motion for a resolution**  
**Paragraph 22**

*Motion for a resolution*

22. Considers that the 2015.eu agenda should **aim at mainstreaming ICT for a low-carbon economy; calls for exploitation of ICT technologies to enable a reduction of 15% in CO<sub>2</sub> emissions to be achieved in key sectors by 2020 and calls for promotion of responsible energy consumption, notably through the installation of smart meters in 50% of homes by 2015**; points out also that the ICT sector footprint should be reduced by 50% by 2015;

*Amendment*

22. Considers that the 2015.eu agenda should **aim at mainstreaming ICT for a low-carbon economy; calls for exploitation of ICT technologies to meet the 20-20-20 objectives of the Climate Change strategy; considers that the implementation of applications such as smart power grids, smart metering, smart mobility, smart cars, smart water management and eHealth should be key initiatives of 2015.eu**; points out also that the ICT sector footprint should be reduced by 50% by 2015;

## Compromise amendment 24 by

replacing Amendments 302, 303 and IMCO 3

### Motion for a resolution Paragraph 24

#### *Motion for a resolution*

24. Draws the attention of the Commission specifically to the necessity to set smart (specific, measurable, appropriate, realistic and time-based) objectives and targets and adopt an Action Plan mobilising all appropriate EU instruments: funding, soft law, enforcement and, where necessary, targeted legislation;

#### *Amendment*

24. Draws the attention of the Commission specifically to the necessity to set smart (specific, measurable, appropriate, realistic and time-based) objectives and targets and adopt an Action Plan mobilising all appropriate EU instruments: funding, soft law, enforcement and, where necessary, targeted legislation **across all relevant policy fields (i.e. electronic communications, education, research, innovation, cohesion policy); calls on the Commission to carry out a regular review of the 2015.eu strategy's achievements on the basis of a broad set of indicators enabling a quantitative and qualitative analysis of social and economic impacts; calls upon the Commission and the Member States to ensure appropriate coordination among EU and national and regional programmes in this field;**

**Compromise amendment 25** by  
replacing Amendments 298, 6 and 8

**Motion for a resolution**  
**Recital Aa (new)**

*Motion for a resolution*

*Amendment*

***Aa. whereas Europe should play a leading role in creating and applying ICT, bringing more value to its citizens and businesses; whereas the use of ICT contributes to underpin current structural challenges, achieving a sustainable economic growth,***

**Compromise amendment 26** by  
replacing Amendments 7, 9, 10 and 12

**Motion for a resolution**  
**Recital Ba (new)**

*Motion for a resolution*

*Amendment*

***Ba. whereas the development of the digital society should be inclusive and accessible to all EU citizens, and should be supported by effective policies aiming at closing the digital gap within the EU, empowering more citizens with e-skills to fully use the opportunities offered by ICTs,***

## Compromise amendment 27 by

replacing Amendments 13, 15 to 19 and 23

### Motion for a resolution

#### Recital D

##### *Motion for a resolution*

D. whereas citizens will refrain from interacting, expressing their opinions freely and entering into transactions if they do not have sufficient confidence in the legal framework of the new digital space; whereas the guarantee of digital rights is an essential condition for confidence on the part of citizens,

##### *Amendment*

D. whereas citizens will refrain from interacting, expressing their opinions freely and entering into transactions if they do not have sufficient confidence in the legal framework of the new digital space; whereas the guarantee **and enforcement** of **fundamental** rights **in this context** is an essential condition for confidence on the part of citizens; **whereas the guarantee of protection of intellectual property rights (IPR) and other rights is an essential condition for confidence on the part of business,**

**Compromise amendment 28** by  
replacing Amendments 25 to 31

**Motion for a resolution**  
**Recital E**

*Motion for a resolution*

E. whereas we have not yet achieved a fully functioning single market for online services in Europe; whereas the free movement of digital services is today severely hindered by fragmented rules at national level,

*Amendment*

E. whereas we have not yet achieved a fully functioning **digital** single market for online and **communications** services in Europe; whereas the free movement of digital services **and cross-border e-commerce** is today severely hindered by fragmented rules at national level; **whereas European companies and public services will gain economic and social benefits from the use of advanced ICT services and applications,**

**Compromise amendment 29** by

replacing Amendments 41 to 43, 47 and 48

**Motion for a resolution**

**Recital Ea (new)**

*Motion for a resolution*

*Amendment*

***Ea. whereas whilst the Internet is the fastest growing retail channel, the gap between domestic and cross-border e-commerce in the EU is widening; whereas a considerable potential for substantial savings exists through cross-border e-commerce for EU citizens, as identified by the Commission Communication on cross-border business to consumer e-commerce in the EU (COM(2009)0557),***
